✓ Gritty & painful eye

✓ Post lasik, cataract surgery

## Brief prescribing information:

**CMCLuvis** is a preservative free sterile ophthalmic solution of carmellose sodium (0.5%) in a bottle of 10 ml, equipped with the innovative and patented preservative-free multi-dose Ophthalmic Squeeze Dispenser (OSD). OSD keeps potentially harmful bacteria away from the solution, which remains sterile for up to 2 months after first use. **Composition:** Carmellose sodium, boric acid, sodium tetraborate, sodium chloride, potassium chloride, calcium chloride, water. **Indications:** CMCLuvis - preservative free eye drops are used to obtain lasting and soothing relief in mild to moderate dry eye. It also provides protection against burning, irritation and discomfort associated with ocular dryness or exposure to environmental factors. **Dosage:** 1 drop in the eye 2-3 times daily as required. **Precautions and warnings:** • Do not use if the container or packaging is damaged • Do not use if you are sensitive to any of the components of the product • Do not use after the expiry date shown on the carton and container • Do not touch the eye with the tip of the container • After administration, in rare cases, a slight temporary blurring of vision may be observed due to the viscosity of the solution. It is therefore advisable to wait for a few seconds before any activity that requires clear vision • Wait at least 10-15 minutes before instilling any other ophthalmic drug • After first opening the bottle, use the product within 2 months
